NVE pioneered pump packages, and our engineering department continues to lead the industry in design and fabrication. We offer the most complete, easy to install packages available - allowing you to significantly reduce your engineering and installation time.

The top frame mount belt and pulley assembly is designed and built with the customer in mind - resulting in a dependable, easy to install package that is easy to service.

Specifications of 367 top frame mount belt and pulley package

- Rugged 3/8" steel construction mounting frame
- Powdercoated finish provides a well deserved level of protection for your equipment to meet the demands of the job site
- Robust 1 3/4" CNC machined jack shaft
- Upper belt guard with expanded metal window to allow fan cooled pump some breathing room
- Intuitive belt tensioning system decreases installation time
- 3" of adjustability in slot travel for pump and jack shaft mount
- Heavy duty 1 3/4" pillow block bearings, 4 BX belts and 6" pulleys provided in an easy to service configuration
- U-bolts and mounting brackets provided for custom fit to your truck
- Auxiliary gravity fed 5 qt oil tank provided to allow for a visual indication of oil tank level
- 12" Oil catch muffler with drain valve included.

Made to accomodate the 367 Challenger™ vacuum pump in either fan or liquid cooled (sold seperately)
